A very good section leader, Jon went over material that was relevant to our lectures and assignments. His explanations were clear and helped me to understand the material better. He basically made the bridge between what we'd learned in class and what was on our homework, which helped make the class a good one.

Overall teaching effectiveness

Please comment on the section leader's knowledge and presentation of the material and how well he/she coordinated the sections with lectures.

Strengths

It seemed that he knew the material well enough and was able to answer questions directed to him.

Suggestions for Improvement

He didn't really know what was going on in lecture (assumed we had gone over things when we hadn't) and relied on student input to direct the course of the sections. I felt that this was ineffective because ultimately it meant that a certain group of students got to learn what they wanted to learn and the rest of the class was

ignored. There was little true organization so I felt more confused by section than helped, and in the end felt like I was better off not even attending.

Please comment on the section leader's effectiveness as a discussion leader, his/her ability to answer questions and keep the discussion on track.

Strengths

Suggestions for Improvement

He didn't really lead the section, but instead asked what the class wanted to learn and based the section on what the loudest students wanted to learn. He answered questions, but in a very intricate, inefficient, difficult to understand way, so that I didn't feel like I was being helped very much.

Please comment on the attitude of the section leader towards the students and his/her availability outside of class.

Strengths

Available outside of class and responsive to most questions.

Suggestions for Improvement

He complained about the lecturers a significant amount, and I felt that that was detrimental to us as students. Instead of making an effort to coordinate with the professor's lecture and reinforce what had been taught, he often took it upon himself to teach us new concepts before the professor did and in the end I thought this was very unhelpful and ineffective.

Please comment on the overall performance of the section leader.

Strengths

Overall teaching effectiveness

Please comment on the section leader's knowledge and presentation of the material and how well he/she coordinated the sections with lectures.

Strengths

Very knowledgeable about the course material.

Suggestions for Improvement

Come into sections with a purpose, don't make us vote on what we want to learn, you should coordinate with Brian White better. If you are going to make us vote, let us vote in advance through email so we do not show up to section with the wrong mindset and so we can prepare for certain topics.

Please comment on the section leader's effectiveness as a discussion leader, his/her ability to answer questions and keep the discussion on track.

Strengths

Draws visual representations very well and makes useful handouts.

Suggestions for Improvement

Make handout answers/procedures available online. Don't go off on tangents when you answer questions, it just makes the discussion more convoluted and confusing (which is very unnecessary). Stop making so many jokes, they suck up class time and confuse some people.

Please comment on the attitude of the section leader towards the students and his/her availability outside of class.

Strengths

Often available for office hours.

Suggestions for Improvement

Don't move offices so much for office hours, stick to the designated area or notify everyone via email that office hours will ALWAYS be held somewhere different than the place listed. Sometimes he was more than an hour late to office hours, which is very rude to the people who woke up early enough to attend office hours. The section leader seemed arrogant at times, and could come off as condescending.

Please comment on the overall performance of the section leader.

Strengths

Handouts were helpful.

Suggestions for Improvement

The section leader needs to be more helpful when deciding whether or not to continue with the course. After the first midterm, he should avoid generalities about lack of work ethic and what not because that is not the case for everyone who is struggling in this course. I attended every lecture, went to more than 95% of sections, even went to the 2 sections in one day (so I could absorb the material twice), went to office hours multiple times with different professors and TAs. SOME guidance would have been helpful (I did not need a definitive 'yes' or 'no') to help me decide whether I should continue with Math 51 or not. I was left in the dark until after the second midterms and towards the end of the course. He was condescending and a tad arrogant--very unhelpful when a student is contemplating whether or not to take the course. He needs to realize that students can often get lost and confused in the technicalities of proofs and theories so he needs to emphasize the big picture of concepts and then superimpose the technical aspects on those concepts afterward. He needs to avoid giving convoluted answers.

Please comment on the section leader's knowledge and presentation of the material and how well he/she coordinated the sections with lectures.

Strengths

Jon really attempts to focus on what is relevant; that is, on what the students need the most immediate assistance with.

Suggestions for Improvement

Sometimes Jon presents very difficult applications of ideas and probably goes over some people's heads. Sometimes it works best to solve problems the longer way, if it is more intuitive to more people.

Please comment on the section leader's effectiveness as a discussion leader, his/her ability to answer questions and keep the discussion on track.

Strengths

Jon never had any troubles doing any problems we threw at him. He kept the class on track for the most part.

Suggestions for Improvement

Sometimes he ended up doing problems after section because there existed a demand for them. In any respect, not all students could stay late every time, which would have definitely helped those students.

Please comment on the attitude of the section leader towards the students and his/her availability outside of class.

Strengths

Jon is a great guy, really positive towards students, and encouraging. His attitude is great.

Suggestions for Improvement

Jon's office hours are available; I just found them way too early. Fair enough I suppose, I just wish he had one set of office hours at a more convenient time.

Please comment on the overall performance of the section leader.

Strengths

Jon is a very good TA. He was helpful and really wanted us to succeed. He must have been doing a good job because our class was consistently above the math51 mean and median.

Suggestions for Improvement

Jon could be a little more consistent with the format of his sections. Sometimes he'll give us papers of info that are helpful, and sometimes he'll just ask us what we want to do. I wish he did more formal midterm review and final review, and less wandering.
